HOW ON EARTH DO I PLAY?

In 'What On Earth Are You Talking About?', you are describing "quintessential" human concepts (left) to your teammates, but there's an extraterrestrial twist! You can only use words that begin with the letters on your Translator Card (right), with underscores being any letter you want!

In the example above, you could explain **Doing The Worm** by saying "My **S**tomach **H**its **G**round, **W**iggling **R**hythmically!"

Now you try! **First contact** awaits!
